

NCIC CTG New Investigator Clinical Trials Workshop

Presenter: Phil Bedard (Princess Margaret Cancer Centre)

Title of Presentation: Phase I Trials

Learning Objectives:

- ▶ Understand the purpose of phase I trials
- ▶ Become familiar with concepts of dose limiting toxicities (DLTs), recommended phase II dose (RPTD), and optimal biological dose (OBD)
- ▶ Provide an overview of the types of trial designs used determine the RPTD
- ▶ Introduction to the role of biomarkers in phase I trials
