

[Toolbox supporting trial conduct](#)

Find commonly used applications, utilities, reports and tools

Applications

[EDC](#) - The electronic data capture system Medidata Rave used to capture, report, and manage clinical data.

[iMedidata](#) - Data collection through the Medidata Rave EDC clinical data management system whereby access to the trial in Rave EDC is granted through iMedidata.

[Mango](#) - Patient allocation and investigational agent inventory management for clinical trials.

[Ripple](#) - Member account registration, administration and creation. Administration and approval of clinical trial participants lists and delegation logs.

[Lettuce](#) - Tissue sample tracking between sites, labs and tumour banks.

[Sprout](#) - Electronic Patient Reported Outcomes (ePRO) System for patients participating in CCTG Trials.

Training

[NIH Ethics Training](#) - Protecting Human Research Participants: NIH Office of Extramural Research

[GCP](#) - Good Clinical Practice

[Division 5 part C](#)

[Site Training Utility](#) - Protocol specific training

[Canadian Cancer Trials Group Supplementary Training Module](#)

Reports

[Accrual Utility](#) - Generates tables, graphs and reports for trial accrual data
([Monthly Site Accrual](#))

[Safety Reports](#) - Safety utility including IBs and PMs

[Papaya](#) - Site specific reports

[Ethics](#) - Ethics Utility

[Permanent Trial Closure](#) - Permanent Trial Closure Listing

AE / SAE / Pregnancy/Exposure Reporting

[CTEP Website](#)

[CTCAE v5.0 Booklet](#)

[CTCAE v4.0 Booklet](#)

[CTCAE v3.0 Booklet](#)

[CTEP-AERS Reporting \(formerly AdEERS\)](#)

[EDC SAE](#) - paper Report Form

Reporting Forms: [Pregnancy](#) / [Exposure](#)

Data Management Tools

[Baseline Symptoms and Adverse Events Template](#)

[Concomitant Medications Template](#)

[iRECIST and RECIST Guidelines](#)

[SI Conversion Table](#)

Tumour Tissue Data Repository

[Tissue Bank](#)

[Inventory](#)

[Application for Tissue Research](#)
