Learning Objectives for the Overall Event

- To understand and address, through clinical and translational research, the disease burden associated with solid tumours and haematological malignancies in Canada
- To summarize recent developments in the understanding of molecular biology and therapeutics as these relate to specific malignancies
- To cite and interpret recent results of clinical studies conducted by or in collaboration with Canadian Cancer Trials Group.
- To understand and apply new clinical trial methodologies in the field of clinical research
- To understand the current regulatory, ethical and legal framework guiding clinical research

Claiming credits and receiving your certificate: Participants wanting to claim credits must use our CME Evaluation Program available on the 2016 Spring Meeting website. You will be asked to evaluate the accredited meeting(s) attended, indicate the number of hours attended, and answer some general questions. Upon completion, you will be able to print your certificate. This certificate will be accepted by the Royal College of Physicians and Surgeons of Canada, but we cannot guarantee the certificate will be accepted by other associations or groups (e.g. CRAs [SoCRA] or Pharmacists).

The DEADLINE for claiming credits and obtaining a certificate is May 18, 2016
